The sixth annual Career Fair will provide a unique opportunity for graduating students to engage with the top employers in the region. This year we're hoping to have 24 employers, ranging from private and non-private, NGOs and development sector.

In the past, AUIS held the largest career fair in the region, Sulaimani Job Fair 2015, in collaboration with Foras/USAID. The two-day event attracted about 47 employers and 1,400 job seekers. The next year, we held a job fair exclusively for AUIS students and graduates. Despite the ongoing financial crisis, 36 companies from private and non private sectors registered for the event, as well as a number of NGOs and international development organizations.

AUIS hopes to continue its efforts in providing this unique platform for both employers and job seekers -- an opportunity for the job seekers to meet and discuss job possibilities, and for employers to network and promote their brand amongst others.

This year's Career Fair is open to both AUIS students and graduates, as well as graduating students from top universities in Kurdistan. Employers will not be limited only to AUIS students, but will get the chance to meet graduates from other universities in Kurditan seeking jobs from different backgrounds and fields of study.
